

ABENE VHF-550 CNC

Note: The Machine on the picture is equipped with the option (BS) Boring spindle

ABENE Milling Machines

Universal, flexible high-quality Machines, build on more than 60 years experience from Tool-making, prototype-series, developing etc. An unique concept for an unique area.

ABENE VHF-550 CNC

A new Vertical - Horizontal Milling Machine. Spindle power 7,5 kW. Spindle speed stepless between 55-4000 rpm. X = 650 mm, Y = 480 mm, Z = 475 mm. Control: Heidenhain TNC-410/426/i530

ABENE CNC Milling Machine with hardened and grinded guide ways in all axes. Heidenhain control, servo, motors and optical linear scales, to reach absolute best accuracy and precision. Hydraulic Tool clamping which handles all tool systems with ISO40 cone. Ergonomically performance which gives a very flexible environment.
